Miguel Luengo Angulo (1976) got his degree as Master Architect by the Madrid Polytechnic (2006, ETSAM, with distinction) and PhD (2015, European Doctor) by the European University of Madrid (UEM, Cum Laude). Since 2007 he is Associate Professor in the Department of Theory and History of Architecture and Urbanism of UEM and since 2015 is Adjunct Professor in the Department of Architectural Design, Graphic Expression, History and Design at the same university, teaching Criticism and Theory of Modern and Contemporary Architecture. His main areas of interest are focused on three areas: Radical and post-radical Architecture (Rem Koolhaas, Coop Himmelblau ...), expanded architectural criticism and architecture as cultural mediation device.

He has taught at the Bauhaus-Universität Weimar (2011), University Francisco de Vitoria (2012), American University of Dubai (2013), Tongji University in Shanghai (2013), Università degli Studi di Firenze (2014) or the California State University in Florence (2014) among others; He has also presented papers or articles about Archigram, the Pompidou Centre, Superstudio or Austrian Radical Architecture in various congresses such as the 8th International Congress of History of Modern Architecture at the University of Navarra (UNAV, 2012), 6th International Congress of Creativity and Society at Complutense University of Madrid (UCM, 2012), the magazine REIA (UEM, 2013) and the 1st International Congress Critic-all (ETSAM, 2014) respectively.

He was also curator of the Symposium: Branding Identity in the College of Architecture and Urban Planning at Tongji University in Shanghai (2013), co-curator of the series of lectures: Research (Thesis) developed at

LASEDE COAM (2013) and curator and main lecturer in the Workshop: Diagrammatic Architecture developed at the American University of Dubai (2014). Lately he has organized different workshops like MASKING MADRID, held in Madrid (28/11 to 02/12 of 2017) with the American University of Dubai, University of Alicante and Universidad Europea de Madrid) and a forecoming event called LIVING HIGUERAS to be held at Arch. Fernando Higuera Lucio House in October 2018 with Universidad Europea, Colegio Oficial de Arquitectos de Madrid and Higuera Foundation.

After working in different offices he established ANGULOARQUITECTOS (anguloarquitectos.es) in 2006, practice devoted on interpreting the gap between architecture and society, relating various fields such as education, research and practice. The office has been awarded in several occasions such as the International Competition EVOLU-The future skyscraper (Finalist, 2011), The International Competition for the GIASC - Guest Information and Sales Center for the Al Ain Zoo (Abu Dhabi, Finalist, 2009), the International Competition VETECO for the best final thesis project (Finalist, 2008) or the OBG - Oman Botanic Garden (Muscat, Oman, 2nd prize and commission, currently under construction since 2007).

Today, he is preparing the publication of his doctoral thesis: "The Radical Architecture. Five points for a theoretical "redescription in a bilingual edition with Ediciones Asimétricas.

He is also a licensed Architect with 14 year of experience in the design and construction industry and have a solid background in delivering significant international projects for both private and public Clients. One of my strengths is my natural ability to adapt to new environments and embrace change in a number of varying design and management roles together with the ability to compose project teams. During my career, I have worked for Clients, Consultants, Industrial Manufacturer, and Contractors in both the public and private sectors, in all areas of the project, with the objective of being the best professional I can be.

Both as a professor as an architect, I consider my areas or expertise and strengths to be in:

- Remarkable Creativeness (research, architecture, design, landscape, writing..)
- Solid Architectural Design Skills (Concept & Development) and Theoretical background
- Team Building, Leadership and class management (empathy)
- Courses Design, Review, Development & Coordination
- Courses Project Management and Construction Management of building
- Contract Management and Budget Analysis
- Construction Planning and Scheduling
- Proposal and Strategy Development
- Organization and Time Management
